

## Safer Patient Positioning for Minimized Pressure Injury Risk

ATR+® is a multi-component patient positioning system designed to keep patients protected from pressure injuries by facilitating safe movements, proper sacral offloading, and superior moisture management.

**Force Reduction**

**Superior Absorption**

**Sacral Offloading**

Scan to Learn More

### Position Perfect® Covered Wedges

Proper sacral offloading achieved throughout the duration of turns with immersive foam to keep patients comfortable; wipeable fluid barrier for liquid control

### ComfortTop® ES Absorption Pad

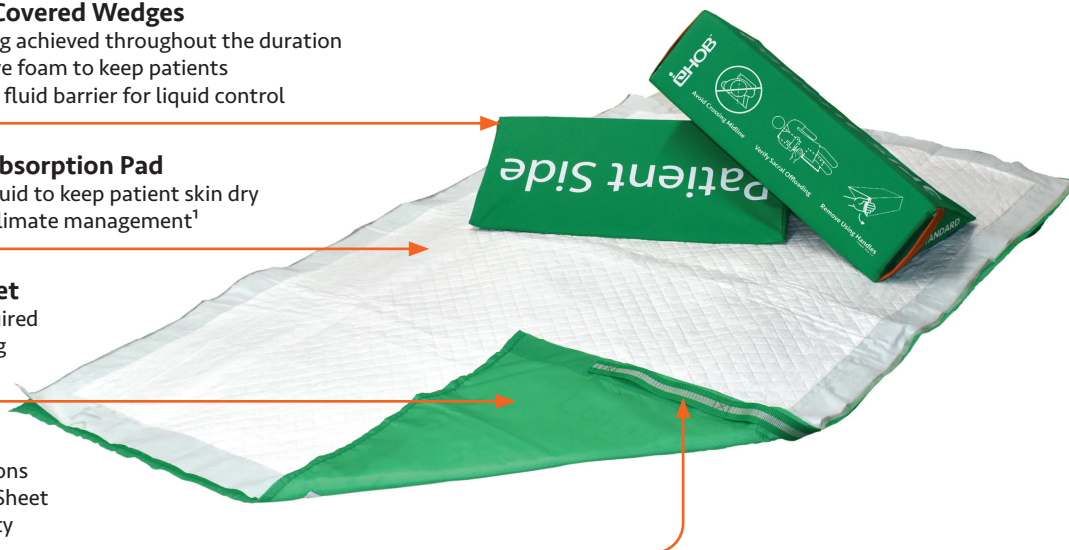

Absorbs 3,000 ml of fluid to keep patient skin dry and assist with microclimate management<sup>1</sup>

### Repositioning Sheet

Reduces the force required by 67% when initiating a lateral transfer<sup>1</sup>

### Handles

Multiple handle locations around Repositioning Sheet allow for staff flexibility

## Clinically Proven

ATR+ and ATR+ Pro System were **trialed in facilities across the country from 2021 through 2025**, enabling clinicians to achieve the following results:

**HAPIs**

Decreased or Dropped to Zero<sup>1</sup>

**ZERO**

New Pressure Injuries or Progression of Existing Pressure Injuries<sup>1</sup>

**ZERO**

Caregiver Injuries Reported<sup>1</sup>

## Ordering Information

Flexible spending and flexible ordering. Order the full system or individual components.
