Learn More

Position Perfect® Wedges

Proper sacral offloading achieved throughout duration of turns with immersive foam to keep patients comfortable, wipeable fluid barrier for infection control

ComfortTop® ES Absorption Pad

Absorbs 3,000 ml of fluid to keep patient skin dry and assist with microclimate management¹

Reinforced Handles

Multiple handle locations allow staff flexibility to help maintain proper body mechanics and reduce the force required to move patients

Immersive Design

Side cushions help cradle the patient for improved safety and comfort, while helping keep them in the center

Repositioning Sheet

Reduces the force required to initiate a lateral transfer by 80-90%, with a wipeable material for simple clean up if soiled¹

Extender Straps

3.5" longer than the leading competitor with a multi-loop design to promote proper body mechanics¹

Quick Connection Port

Attaches easily to pump for secure connection and set up

Side Stripes

QR code, infographics, and product instructions for point of care education

Ordering Information

Flexible spending and flexible ordering. Order the full system or individual components.
