

Simplified Patient Positioning, Reinforced Patient Protection

A multi-component system designed to facilitate patient positioning while keeping patient skin protected. Keep patients and staff protected from injuries with this easily accessible solution.

Force Reduction

Superior Absorption

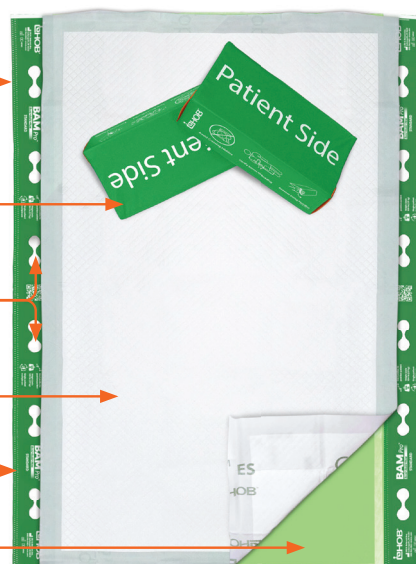

Sacral Offloading

Scan to Learn More

- Repositioning Sheet**
Reduces the force required to initiate a lateral transfer by 67%¹
- Position Perfect® Wedges**
Proper sacral offloading achieved throughout duration of turns with immersive foam to keep patients comfortable; wipeable fluid barrier for infection control
- Reinforced Handles**
Multiple handle locations designed to allow staff flexibility to help maintain proper body mechanics and reduce effort required to move patients
- ComfortTop® ES Absorption Pad**
Absorbs 3,000 ml of fluid to keep patient skin dry and assist with microclimate management¹
- Side Stripes**
QR codes, infographics, and product instructions for point of care education
- Wipeable Surface**
Designed to allow for easy clean up if soiled

Clinically Proven

The following acute care trial results demonstrated BAM® Pro System's effectiveness in **preventing staff injuries and supporting positive patient outcomes**, enabling clinicians to achieve the following:

ZERO

Progression of Pressure Injuries²

ZERO

New Pressure Injuries Developed²

ZERO

Staff Injuries Reported²
